About our products and why they make great gifts

Personalized one on one Crystal Rx to event decor, crystalsandjewels.com is shifting to promoting self healing through art, nature, jewels and holistic tools. Create the right vibe for you, your gift recipient or your space. DM on Instagram @crystalsandjewels

About us

Based in Washington State, Crystals and Jewels started out as a small mom (no pop) shop. After an abrupt pause to a catering sales career in the event industry, Crystals and Jewels was created when passion for crystals met new-founded free time. 99.9% of inventory IS NOT on the website. It's designed to be a personal experience.

Something aside from all the challenges of operating a small business in Washington State made Crystals and Jewels pivot. There was something more purposeful about these crystals. I have done a lot of work and self healing in the time I was away from my corporate responsibilities. During that time, I learned how to use and develop my gifts and intuition to heal myself. Now, I want to help heal others. Any true healer will not claim to be able to heal you, but to help you heal yourself. I am shifting towards a donation-based non profit. My vision is to help people heal through retreats, readings, sound baths, meditation, song and divination. Mental Health Art Church, Emily's Rx and Our Tranquillum House Retreats are under development along with 501c3 status & board development.

I value relationships and authenticity, and feel conversations are they way to help you find your perfect crystals and personal Rx to help you find the path towards healing yourself. If you're looking for order fulfillment without a personal touch, you're better off getting your free Prime two day shipping. Please feel free to ask any questions about crystals and products you may be looking for or if you're wondering what crystals would be best for overcoming certain personal struggles. About our products and why they make great gifts

America's Automotive Trust's Membership is perfect for individuals or families looking for special access to online virtual exhibits, events and educational programs, discounts with participating national partners and admission to LeMay – America's Car Museum in Tacoma, WA, and America On Wheels Museum in Allentown, PA.

All members receive invitations to special events, discounts at ticketed events, discounts with participating partners, and a subscription to the monthly AAT E-Newsletter.

About us

<https://www.americasautomotivetrust.org/> It wasn't long ago that cars were a much bigger part of American life. For most, they were the first taste of freedom that opened the doors – and the world – to endless possibilities. Cruising down the main drag or backroads for Sunday family adventures was part of life. Now, cruising with friends has been replaced by a virtual world seen from a screen.

We believe that cars connect us to the best things in life and that America's love affair with the automobile should not only be recognized as part of our history, but of our future. Knowing others believe the same, we saw an opportunity for like-minded organizations to work together and, in 2016, established America's Automotive Trust to do just that.

Together with our partners and member organizations of LeMay – America's Car Museum, the RPM Foundation, America On Wheels, Club Auto and the Concours Club, we fulfill our purpose to honor the past, celebrate the present, and drive the future of car culture. Learn more about the

entities that are a part of America's Automotive Trust.

Education is at the heart of everything we do, and driving is at our core – from the classroom to the open road.

Much of modern-day American culture has been built on the means of transportation, and the future of mobility is as crucial now as it has ever been. Our automotive heritage should be secured for future generations – a mission that can only truly be accomplished by working together. Through America's Automotive Trust, we share resources and support each other, streamlining efforts to make a greater impact.

It's the love of everything automotive. The feel of the wind in your hair, or a wrench in your hand. The adrenaline of stepping on the accelerator, and the thrill of the journey rather than the destination. It's the determination and satisfaction of fixing something, and having a community to enjoy it with.

We believe in not only preserving the passion for cars, but also being sure it continues to thrive. That's why America's Automotive Trust exists.

About us

Friends of City Park is a regional, non-profit organization whose mission is to maintain and increase the value and importance of City Park as a place of natural beauty, culture, recreation, and education for the public.

For over 170 years, New Orleans City Park has provided access to abundant natural and cultural resources to residents of the region and tourists from around the world. The Park is home to the New Orleans Botanical Garden, Couturie Forest and Arboretum, the New Orleans Museum of Art, the Louisiana Children's Museum, and the largest grove of mature live oaks in the world, some of which are nearly 800 years old.

The Park's 1,300 acres make it one of the largest urban parks in the United States, and a popular place to fish on the bayou,

picnic, experience safe outdoor play, or engage in athletic pursuits—as evidence by more than 16 million visits each year.

City Park’s annual operating budget has been largely derived from self-generated activities. The COVID-19 pandemic, which significantly affected revenue-generating facilities due to restriction closures, highlighted the vital importance of philanthropic support and the continued effort in diversifying revenue streams.

Friends of City Park is vital and important to the Park’s preservation and beautification. As the 501c3 support organization, over the years, Friends has raised millions of dollars to support City Park with capital improvements and beautification needs.

These would be great for any small business or large. We can customize the shirts to be the same with minor tweaks such as the name of the person. You can get it for you, gift it to your friend or or get your little kid a shirt of a ballerina in their favorite color tutu or favorite color ninja outfit, the sky is the limit.

About us

We began making vinyl shirts and hoodies for friends and friendors and that grew into being more fun then we expected. We decided to expand on Kataram Studios and begin a brand under it Kataram Kreations making personal items for anyone. When we had Evolve we made our NACE Pod all hoodies as a gift and that went much better then expected when people posted photos and suddenly people asked to order items for their own business custom to their employees names.

We are hoping to use this source to do more for our communities if possible.

About our products and why they make great gifts

What is a Family Memoir? Family stories are precious: How did your parents (or grandparents) meet? What was childhood like? What were their fantasies growing up? What were the high points - and low points - of their lives? Family Memoirs are video stories, told in the first person, and interspersed with appropriate photos, videos, film, documents. Told in chapters, they offer the gift-giver with lasting memories that will be cherished for generations. We film these live (when appropriate) or via Zoom. We interview the subjects using questions and topics chosen by the gift-giver. Often purchased by several siblings to record their parents or grandparents, this gift will continue to add meaning to families.

About us

GENERATIONS cinemastories has been making first-person narrative films for almost 20 years. More than just pretty pictures, we capture stories that have shaped lives and integrate them with images and music.
